Design Services

Bespoke Office Creative crafts tailored boardroom, reception, office storage, and seating solutions with CAD precision and deep industry insight.

Through consultation and site surveys, we capture key spatial details. Our three-stage process, Consultation, 2D/3D Layouts, Fully Rendered Visuals, delivers exceptional spaces that combine ergonomic function with bold brand expression for a lasting impression.

2D & 3D Layouts

Bespoke Office Creative provides detailed 2D layouts and precise 3D line drawings for boardroom, reception, storage, and seating solutions.

These visual plans reveal desk positioning and proportions with clarity, helping you preview and refine your concept early. Avoid design issues and achieve a finished space that reflects your expectations, brand, and values to the smallest detail.

Rendered Visuals

At Bespoke Office Creative, we visualise boardroom, reception, storage, and seating concepts in richly rendered 3D, infused with curated colours, premium finishes, and exquisite materials.

This immersive final preview offers unmatched refinement and precision, empowering you to perfect every detail pre-installation. It's the signature step that brings vision to life and delivers a statement space with confidence

How we work

Process 1: Consultation

We begin with a complimentary design consultation and site survey, tailored for commercial clients, specifiers, and architects.

This phase ensures precise measurement and functional planning for boardroom, reception, seating, and storage solutions that amplify space and express your brand vision.

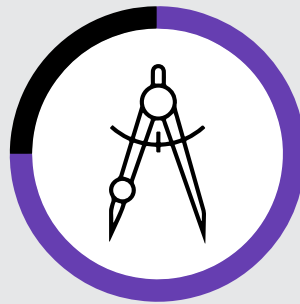

ADVICE

Process 2: Design

Our in-house design team develops highly detailed 2D layouts and crisp 3D visuals, allowing collaborative refinement before sign-off.

These multi-angle drawings showcase proportions, material concepts, and spatial flow, ensuring clear understanding and perfect alignment across every furniture element.

DESIGN

Process 3: Quote

Once design details are finalised, we present a no-obligation quote with transparent pricing.

It includes size, style, finishes, and material specs for all bespoke furniture items. The quote remains valid for 30 days, supporting accurate budgeting and confident planning.

QUOTATION

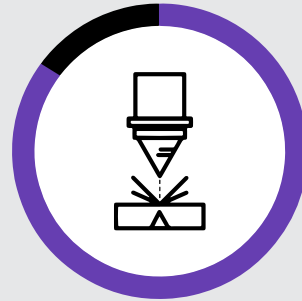

Process 4: Order

Upon quote acceptance and deposit confirmation, we begin sourcing materials, including specialist surfaces like Dekton or Corian.

Your bespoke designs move into production with full approval and a clear payment schedule, guaranteeing precision and seamless installation coordination.

ORDER

PRODUCTION

Process 5: Production

Each component is crafted to exact specifications, whether it's a statement boardroom table, reception desk, or tailored seating.

Expert machining, hand-finishing, and stringent quality checks ensure durability, refinement, and a premium aesthetic finish before delivery.

INSTALLATION

Process 6: Installation

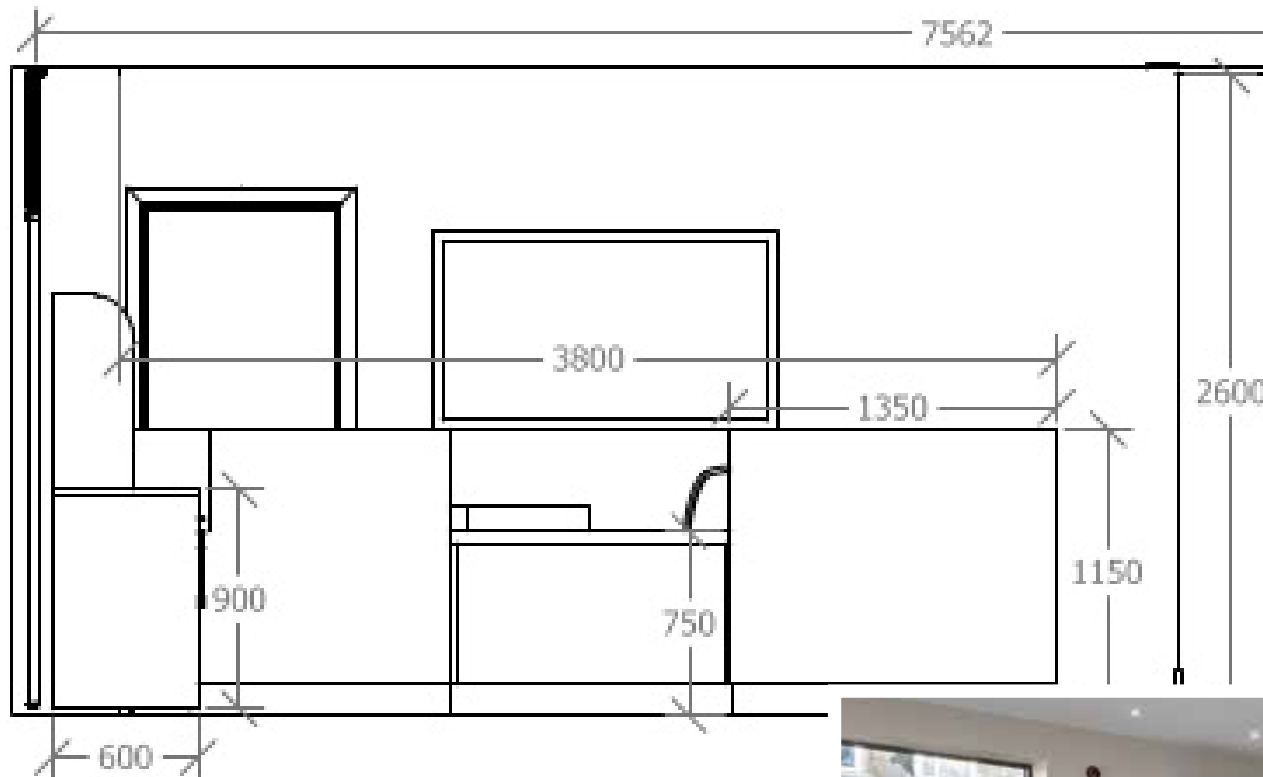

Installation is coordinated around your schedule to minimize disruption. Whether fitting an executive suite or reception area, every detail is executed with care and professionalism.

Final approval confirms your brand's vision has been flawlessly realised, right down to the last detail.

Concept to Completion

From concept to completion, we craft bespoke reception desks, boardroom furniture, storage, and seating that elevate your brand and workspace. Whether bold, refined, or welcoming, our designs reflect your vision with elegance and function.

Using premium materials like Corian®, natural stone, veneer, and quartz composite, plus acrylic, foil, and reconstituted stone, each piece balances durability with style. Profiles can be curved, straight, or conical and are built at optimal working heights.

Every detail is shaped by our design specialists using advanced fabrication and CAD precision.

Your space isn't just practical—it's a lasting statement of quality and identity.

Bespoke Boardroom Furniture

Make a powerful impression with boardroom tables that combine striking design with everyday practicality.

From sculptural silhouettes to premium finishes, each piece is tailored to suit your space, layout, and brand.

Our skilled design team builds functional workstations with concealed cable management, integrated tech, display elements, and more. Whether your concept is developed or just emerging, we bring it to life with smart features like accent lighting, flush-mounted logos, and responsive access options.

By blending strong visual impact with efficient utility, our bespoke boardroom tables support collaboration while reflecting your company's identity. Precision-crafted, budget-considered, and built to lead the conversation.

Bespoke Reception Furniture

Make an unforgettable impression with reception furniture that merges dramatic design and everyday functionality. Each desk is tailored to your space, brand, and practical needs, featuring sleek profiles, premium finishes, and hidden tech integration.

From cable housing and shelving to LED accents, logos, and access control, our designs combine statement aesthetics with ergonomic utility.

Whether bold and modern or refined and understated, we craft reception pieces that welcome clients and support team workflow. With CAD precision and advanced fabrication, every detail is refined to elevate your workspace.

Affordable, impactful, and built to endure, our reception furniture doesn't just greet, it inspires.

Bespoke Office Storage

Transform workspace organisation with bespoke storage designed for style and practicality.

From boardroom credenzas to full-height office storage walls, we craft systems that balance elegance, efficiency, and brand alignment.

Whether discreet or statement-making, each unit is tailored to your layout, workflow, and aesthetic. Our design team incorporates premium materials, Corian®, veneer, quartz composite, acrylic, and integrates elements like cable management, branding, and tech access.

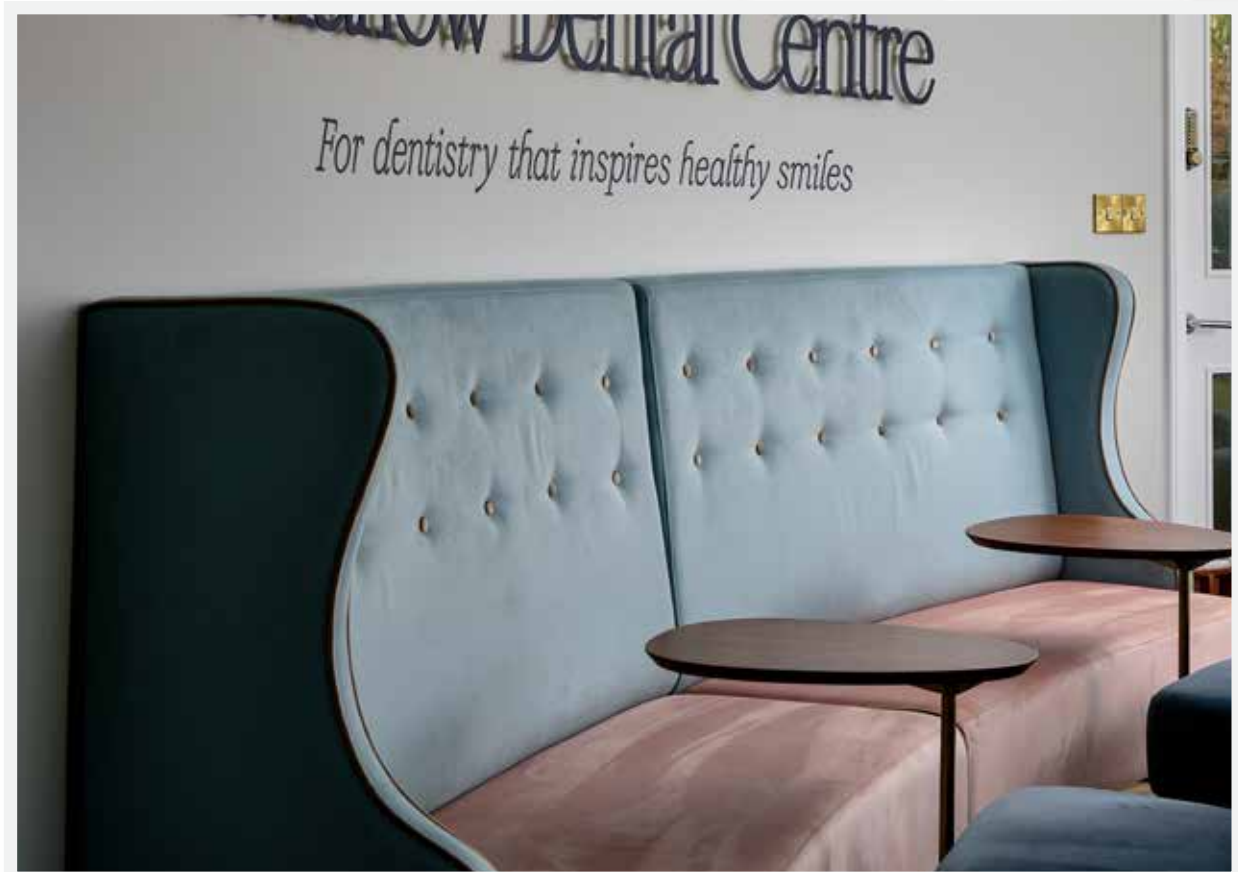

Storage can be built into reception desks, boardrooms, or featured as standalone pieces. Every project is precision-crafted using advanced fabrication and CAD detailing.

Smart, seamless, and built to endure, our office storage solutions create order with visual impact.

Bespoke Office Seating

Enhance workspace comfort and collaboration with bespoke seating solutions built for style, flexibility, and function.

We design modular seating systems, bench units, and booth configurations that adapt to your layout, encourage interaction, and support privacy where needed.

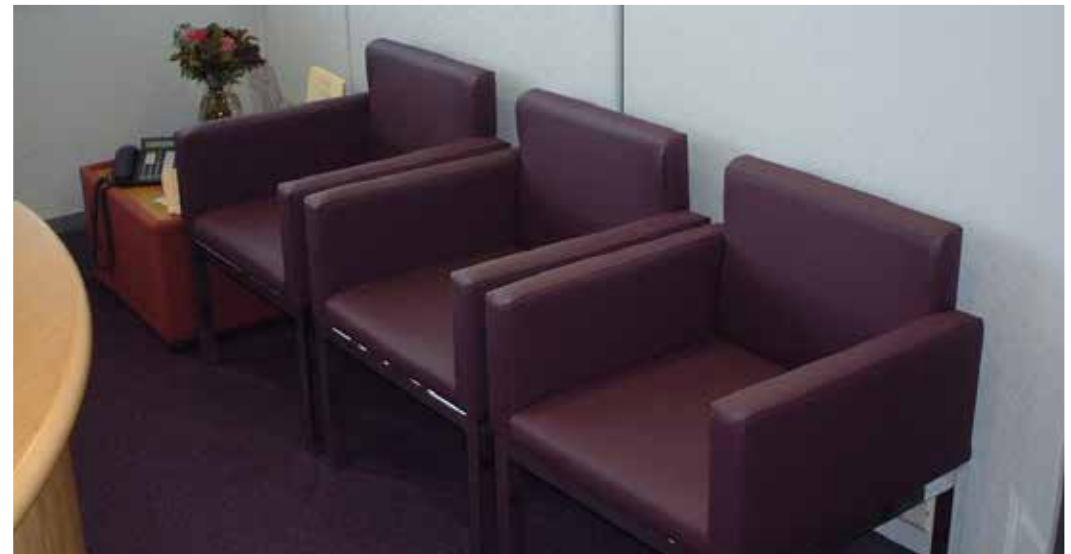

Crafted using premium materials, upholstery, Corian®, laminates, and engineered boards, each piece balances durability with design elegance. Whether in shared spaces, quiet zones, or client-facing environments, our seating reflects your brand while supporting wellbeing and flow.

Details like integrated power, ambient lighting, and acoustic control can be included to enrich user experience.

Functional, striking, and tailored to perform, our seating solutions are made to inspire and support every part of your workspace.

Projects

Sector-Spanning Expertise

Our bespoke boardroom and reception furniture, office storage, and seating have been trusted across industries, from blue-chip corporations and dental practices to aesthetic clinics, NHS centres, and education providers.

Each solution is tailored to the client's space, sector, and brand vision, combining premium materials with functional detailing. Whether high-impact corporate interiors or sleek, hygienic environments, we deliver furniture that meets both practical needs and aesthetic goals.

Boardroom tables, reception desks, storage walls, and modular seating are crafted with precision and purpose.

Across every project, our commitment remains the same: to shape furniture that supports staff, impresses visitors, and creates memorable spaces.
